KEMPSTON-PARKES

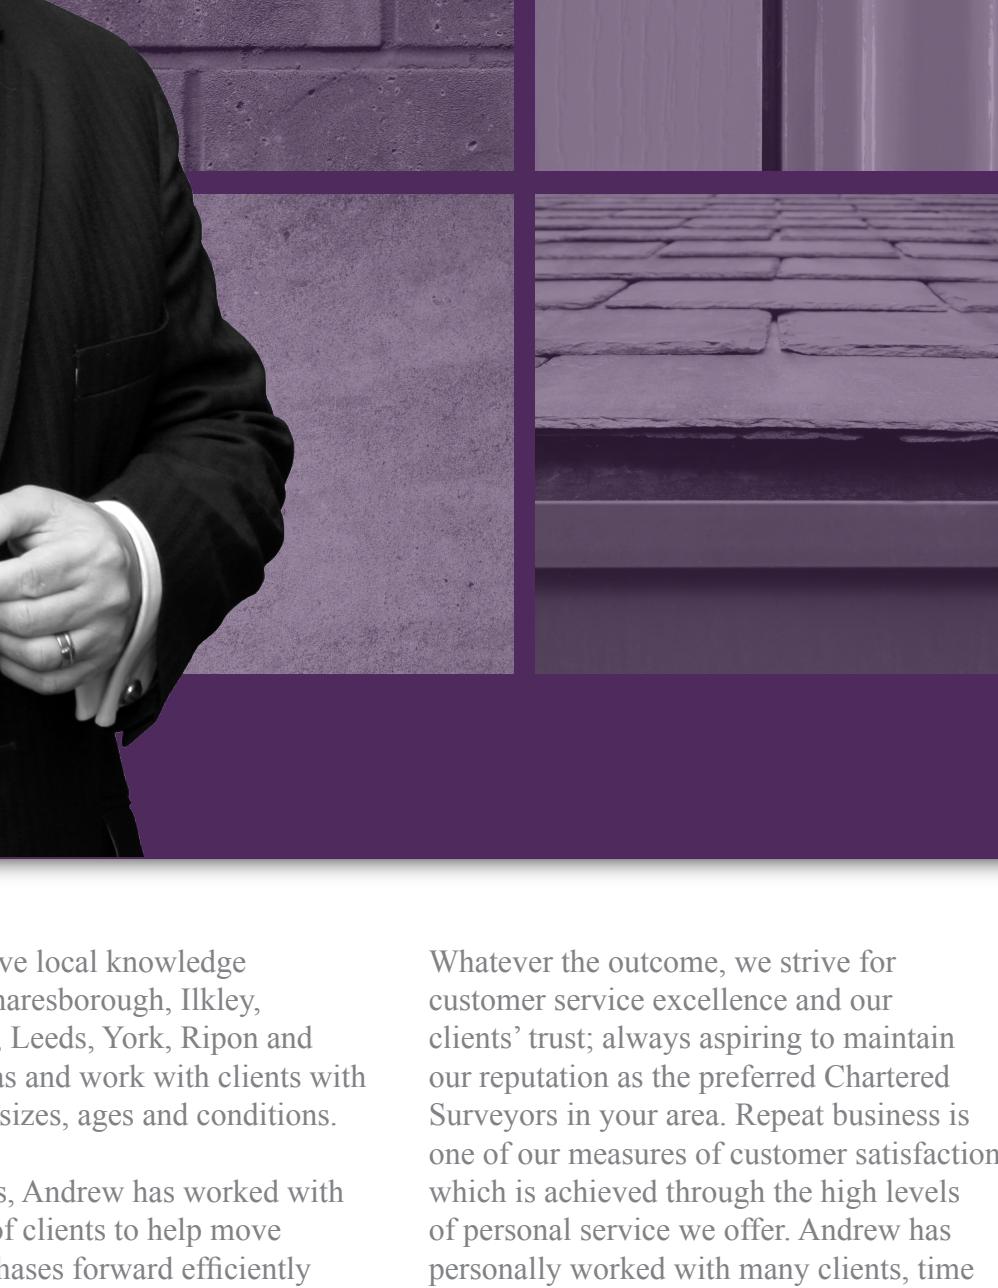

CHARTERED SURVEYORS

"Ensuring your house survey is credible and accurate is fundamental, and often the deciding factor, that makes or breaks a house purchase. So using the services of a reputable Chartered Surveyor is paramount."

"At Kempston-Parkes Chartered Surveyors, we offer our clients a unique, more measured approach that is built on experience, integrity, personal service and strong client relationships."

Andrew Kempston-Parkes,
Managing Director

ABOUT US

Kempston-Parkes Chartered Surveyors may be a newly established company, but our business acumen and many years of experience of valuing and inspecting residential properties is solid and reputable.

Andrew Kempston-Parkes, our Managing Director, is a well-respected, experienced member of The Royal Institution of Chartered Surveyors (RICS), having worked as a Chartered Surveyor in the residential property industry for over 14 years, within the Yorkshire region.

Because we are regional, we have an in-depth understanding of the local housing market and can confidently advise on the condition of all types of properties, and make accurate market valuations based on the breadth of our experience.

We have extensive local knowledge of Harrogate, Knaresborough, Ilkley, Otley, Wetherby, Leeds, York, Ripon and surrounding areas and work with clients with properties of all sizes, ages and conditions.

Over many years, Andrew has worked with a large number of clients to help move their house purchases forward efficiently and with ease. Or, when properties haven't been quite up to scratch because of various defects identified through an inspection, his vigilance has helped clients to make an informed decision, even if this has meant not proceeding with the house purchase.

Whatever the outcome, we strive for customer service excellence and our clients' trust; always aspiring to maintain our reputation as the preferred Chartered Surveyors in your area. Repeat business is one of our measures of customer satisfaction, which is achieved through the high levels of personal service we offer. Andrew has personally worked with many clients, time and time again.

OUR SERVICES

We understand that buying a property is a big emotional and financial commitment, so ensuring that your purchase is backed by the very best advice and guidance from an experienced and personable Chartered Surveyor, is vital to making an informed choice.

We will share your passion, excitement and anxieties; after all it's part of taking that big step, whether it's your first time on the property ladder or your final house move.

Whatever your requirements, we provide a full range of home surveys and inspections and residential property valuations. The service that is right for you depends on your particular property and individual requirements. Because we're independent, we offer professional bespoke advice, tailored to your needs.

Kempston-Parkes, Chartered Surveyors already works with many established estate agents in your area, so you can instruct us to survey your property directly and independently.

SURVEYS, TAILORED TO YOUR NEEDS

You may be unclear about what type of survey you will need, so to get things started, why not call us for a no-obligation consultation over the phone, so that we can advise you on the best route forward.

We can discuss the type of property in question, its location, age, size and layout and your aspirations. We will then guide you through the process and recommend the level of inspection that we feel is appropriate to your needs.

Once the report is complete, it doesn't end there. You can expect ongoing support from us throughout the process and we will be on hand to answer your questions. If you want us to walk around the property with you again, to put potential defects into context, then we can arrange that with you too. It may help to put your mind at ease. We ultimately aim to offer reassurance amidst uncertainty.

At Kempston-Parkes Chartered Surveyors, we offer four levels of inspection and produce reports that are appropriate to your requirements.

WHAT OUR CLIENTS SAY

"Just a quick note to say thank you for all your help in buying our new bungalow. We are due to move in at the end of the month. We really appreciated your efforts in organising the survey and for coming to see us in our home. It helped enormously."

Mr and Mrs J, Wetherby

"We have decided not to proceed with our purchase. After our meeting we felt that the property was too much for us to take on and at our age we should be looking for something in better condition. Your Home Buyers Survey really helped us make an informed decision. We will use your services again when we find our next property."

Mr and Mrs W, Ilkley

"Thank you for the Homebuyers Survey and for organising it so quickly. It has been great to have your professional advice from start to finish."

A Home Condition Report can take around 30-40 minutes. It does not include a valuation, but takes into account the constituent parts of the property, and we will make a grading 1-3, depending on the condition of the property:

- Grade 1 means that no repairs are required at the current time
- Grade 2 reveals that some repairs are required, but they are not serious or urgent
- Grade 3 represents the fact that there are defects of a serious nature or there are some defects that require urgent repair.

3 HOMEBUYERS' SURVEY

CLOSE -

A Homebuyers' Survey is recommended for the vast majority of properties built from 1850 onwards. The aim of the survey is to provide a snapshot of the overall condition of the property and to identify those areas that need further investigation.

The inspection can typically take up to two hours, with the output being a 20-page report outlining the condition of the property, putting any defects into context. A detailed explanation is conveyed to the potential buyer, alongside a recommendation for any further investigations. A property valuation is also provided as part of the survey.

The Building Survey is a more detailed, comprehensive report about the condition of a property. It can take several hours to complete and is recommended for properties that are over 150 years old, have been significantly extended or altered or are listed.

The survey inspects every accessible part of the property and examines all defects, outlines repair, and offers technical information about the property's construction and materials. Proposals are made for any further special inspections and subsequent work, which may need to be done on the property.
